

**The Ninth International Conference on Waste Management and Technology**  
**——Towards Closed Loop of Waste Management**  
**Enterprises Publicity and Cooperation Scheme**

## About ICWMT

With the approval of the Ministry of Environmental Protection of China, the International Conference on Waste Management and Technology (ICWMT) initiated by Basel Convention Regional Centre for Asia and the Pacific has been held for 8 times since 2005. It is an important international platform for specialists and officials to discuss scientific problems, exchange experiences, and look for innovative solutions. The ICWMT attracts a great number of participants from governments, research institutions, universities and industries annually. 8<sup>th</sup> ICWMT attracted about 500 delegates from over 28 countries.

On this basis, the 9<sup>th</sup> ICWMT will be held in Beijing on October 29-30, 2014. The theme of 9<sup>th</sup> ICWMT is "Towards Closed Loop of Waste Management". And the most famous experts and government officials will be invited to give keynote speeches on the hot issues of solid waste, valuable chances for all the participants to present and communicate ideas are provided. Free technical field trip to e-waste and hazardous waste treatment will be arranged.

### Why to join this exhibition?

Basel Convention Regional Centre for Asia and the Pacific will organize a regional trade symposium on the base of the 9th ICWMT, “Cooperation between enterprises on chemical management and waste treatment and technology transfer in Asia and the Pacific”. The conference will invite government officials and enterprises representatives from Laos, Philippines, Thailand, Bangladesh, Nepal, Myanmar and India, etc., which will provide valuable chance for all the participants to communicate experiences and demand of chemicals & waste management, analysis and disposal. The 9<sup>th</sup> ICWMT serves as a communication platform between domestic enterprises and Asia and Pacific region countries & enterprises, which exerts an important impact on domestic enterprises understanding the demand of chemicals and waste of Asia and Pacific, and furthermore reaching new market.

Additionally, 9<sup>th</sup> ICWMT will hold side events on the subject of e-waste, hazardous
